## THIN BOND REPAIRS (MAXI-CRETE)

BBA and HAPAS approved thin bond repairs to Concrete or Asphalt. Hot applied resin based material, offering a highly cost effective repair solution which avoids the need for a full depth repair.

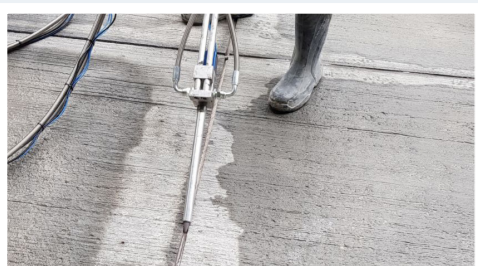

[CALL FREE QUOTE](#)

## HOT POUR JOINT

Cutting, widening, and sealing joints in concrete or asphalt carriageways and airfield pavements using hot bitumen products to meet specified specification.

[CALL FREE QUOTE](#)

## COLD POUR JOINT

Cutting, widening, raking and resealing of joints using a high performance 2 part polysulfide fuel resistant, fast cure sealant with high durability and high movement accommodation. Ideal for airfield runways and taxiways EU 14188-2 compliant.

[CALL FREE QUOTE](#)

## AGL INSTALLATION

Our teams are trained to cut, drill, breakout and install ducts and AGI pots to CAA regulations. We can provide a rapid response to UK or International requirements, using the latest machinery and processes.

[CALL FREE QUOTE](#)

## RHINOPHALT SURFACE STRENGTHENING

A quick, cost effective solution which protects the condition of the existing asphalt surface. It is a HAPAS approved, preventative maintenance treatment used on highways, runways, car parks, cycleways etc as a means to improve aggregate cohesion and resistance to moisture ingress and weathering, which in turn reduces the need for planned maintenance.

[CALL FREE QUOTE](#)

## DIAMOND DRILLING

Using specialist, diamond drilling tools allows us to cut through the toughest, reinforced concrete with upmost precision.

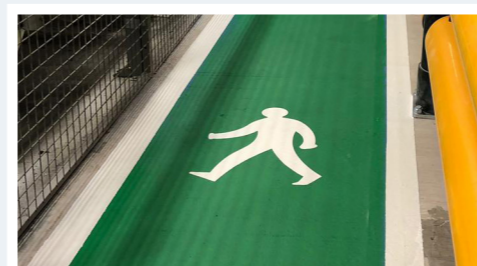

[CALL FREE QUOTE](#)

## CONCRETE AND ASPHALT SAWING

Self propelled diesel driven floor saws ideal for diamond saw cutting concrete or asphalt in carriageways, runways, hard standings and aprons. Mainly used for forming isolation demolition cuts or widening of existing or new joints.

[CALL FREE QUOTE](#)

## LINE PAINTING

Our quick-drying line paint delivers lasting results with minimal disruption. We offer white and coloured lining using single pack, high-build road marking and delineation paint, ideal for use on hard surfaces such as roads, car parks, distribution centres, airports and docks.

[CALL FREE QUOTE](#)

## PULL TESTING

We provide pull testing to fixtures and anchors which have been installed in concrete or masonry, to confirm they meet the specification required. Our latest GPS enabled devices produce detailed reports as evidence of the test results, direct to your email.

[CALL FREE QUOTE](#)

## SPECIALIST GROUNDWORKS

We carry out specialist groundworks, from simple foundations and drainage to full automatic number plate recognition installation (ANPR), including signage, barriers and cabling. Our innovative machines are often fume free for use in warehouses, basements and food factories.
